Project Title: Studio Ghibli

I would like to build this site with multiple pages and a navigation header at the top, linking the user to each page with different information. Each page would contain

- **Home Page/Introduction** – Introduce basic point I want to get across about Muhammad Ali's life and legacy. Set the tone for his social activism and impact.
- **Works** – Full list of films and descriptions of each.
- **History** – Information about the Tokuma Shoten era and the independent era of the studio.
- **Sources** – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
